**PROJECT GUIDE**

EASY TO APPLY	WHEN TO APPLY
Use with watering cans following directions on side panel.	For best results, feed outdoor plants every 7 - 14 days through the growing season. Feed indoor houseplants every 14 days when actively growing.

**Planting Tips**  
 Choose the right plant for the right location. Group sun-loving, drought-tolerant plants together in hot, sunny locations and those that require more moisture or less sun in more protected areas. Mulch gardens and use decorative soil covers in containers to insulate soil, reduce evaporation and control weed growth.

**CAUTION. DO NOT SWALLOW. KEEP OUT OF REACH OF CHILDREN AND PETS.**

**PRECAUCIÓN. NO INGERIR. MANTENER FUERA DEL ALCANCE DE LOS NIÑOS Y LAS MASCOTAS.**

Fill by weight, not volume. Variations in color and form will not change effectiveness. Hardening may occur when exposed to moisture. Break up clumps by tapping lightly. Contains coloring. Avoid spilling.

When applied as directed, this product meets the guidelines for metals adopted by the Association of American Plant Food Control Officials.

**GUÍA DEL PROYECTO**

FÁCIL DE APLICAR	CUÁNDO APLICAR
Cueto con cualquier regadera de acuerdo con las instrucciones que aparecen en el panel lateral.	Para obtener mejores resultados, fertilice las plantas de exterior cada 7 a 14 días durante la temporada de crecimiento. Fertilice las plantas de interior cada 14 días cuando estén activamente crecienso.

**Consejos para Plantar**  
 Elija la planta correcta para el lugar correcto. Agrupe las plantas que requieren poca y toleran mejor en lugares cálidos y soleados, y las que requieren más humedad o menos sol en áreas más protegidas. Cubra los jardines con cubresuelo orgánico y use cubiertas decorativas para tierra en las macetas para evitar la erosión, reducir la evaporación y controlar el crecimiento de las malezas.
